Issue 1 Volume 7 February 2009

This Special Issue of *Frontiers*, focusing on ecosystem services, was generously funded by the National Science Foundation (DEB-0836554), the US Environmental Protection Agency, and The Nature Conservancy.

We thank Guest Editor Peter Kareiva for his help with this issue.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the funders.

3 Guest Editorial

Using science to assign value to nature
S Ruffo and PM Kareiva 

3

4 Research Communications

Modeling multiple ecosystem services, biodiversity conservation, commodity production, and tradeoffs at landscape scales

E Nelson, G Mendoza, J Regetz, S Polasky, H Tallis, DR Cameron, KMA Chan, GC Daily, J Goldstein, PM Kareiva, E Lonsdorf, R Naidoo, TH Ricketts, and MR Shaw

4

Integrating conservation and development in the field: implementing ecosystem service projects
H Tallis, R Goldman, M Uhl, and B Brosi

12

21 Reviews

Ecosystem services in decision making: time to deliver

GC Daily, S Polasky, J Goldstein, PM Kareiva, HA Mooney, L Pejchar, TH Ricketts, J Salzman, and R Shallenberger

21

Non-linearity in ecosystem services: temporal and spatial variability in coastal protection

EW Koch, EB Barbier, BR Silliman, DJ Reed, GME Perillo, SD Hacker, EF Granek, JH Primavera, N Muthiga, S Polasky, BS Halpern, CJ Kennedy, CV Kappel, E Wolanski

29

Assessing benefit transfer for the valuation of ecosystem services

ML Plummer

38

Paying for environmental services from agricultural lands: an example from the northern Everglades
PJ Bohlen, S Lynch, L Shabman, M Clark, S Shukla, and H Swain

46

56 Frontiers Trading Post

Products, services, academic programs and courses, employment opportunities, awards, announcements, conferences, and meetings

60 Finishing Lines

Ecosystem services – out of the wilderness?
K Ellison

Cover picture: These Sri Lankan stilt fishermen rely on ecosystem services that lead to clean coastal waters and healthy fish populations.
