231 Guest Editorial

Ecology, agriculture, and sustainability
MR Walbridge

232 Dispatches

The price of tar-sands oil
Europe backs ecodesign for taps, showers,
and windows
Panama's polemic hydroelectric project
Do you want fries with that?
Australia's dry heart beats with life
E-waste: reuse, don't recycle
Banning energy-hog TVs
Solving the supermarket dilemma
Resilient reefs forestall climate change
Mangroves reduced storm death toll
Assam rhino population on the rise

238 Write Back

Letters to the editor regarding the contents of past issues and comments on topics of current concern to *Frontiers* readers

242 Research Communications

Associations of concern: declining seagrasses and threatened dependent species
AR Hughes, SL Williams, CM Duarte, KL Heck Jr, and M Waycott 242

Ecological cross compliance promotes farmland biodiversity in Switzerland
S Aviron, H Nitsch, P Jeanneret, S Buholzer, H Luka, L Pfiffner, S Pozzi, B Schüpbach, T Walter, and F Herzog 247

253 Reviews

Tracking the rhythm of the seasons in the face of global change: phenological research in the 21st century
JT Morisette, AD Richardson, AK Knapp, JI Fisher, EA Graham, J Abatzoglou, BE Wilson, DD Breshears, GM Henebry, JM Hanes, and L Liang 253

Constructed wetlands in China: recent developments and future challenges
D Liu, Y Ge, J Chang, C Peng, B Gu, GYS Chan, and X Wu 261

269 Concepts and Questions

Airborne spectranomics: mapping canopy chemical and taxonomic diversity in tropical forests
GP Asner and RE Martin 269

277 Fresh Perspectives

After "eco" comes "service"
R Salguero-Gomez, MD Whiteside, and JM Talbot, WF Laurance

279 Laws of Nature

Regulating greenhouse gases, part II
DF Rohrman

280 Frontiers Trading Post

Products, services, academic programs and courses, employment opportunities, awards, announcements, conferences, and meetings

284 Finishing Lines

Take my TV – please!
K Ellison

Cover picture: Seagrasses, such as *Amphibolis griffithii* in southwestern Australia, are imperiled throughout their global range, placing many dependent species – including the leafy seadragon (*Phycodurus eques*) – under threat.
